KALEN CHASE

BIOGRAPHY

Kalen Chase is a rare breed. Born in Southern California and growing up in Washington State, his love of music has led him down many untraditional paths. From opera training, to teaching at Musicians Institute in Los Angeles, to touring with Korn and fronting the band Vimic with Joey Jordison of Slipknot.

Kalen has worked extensively in the studio providing backing vocals for artists including 10 Years, Pop Evil, Dragonforce and singing on the Lego Batman movie soundtrack.

Now, Kalen has embarked on a new path, building upon his singer-songwriter roots, hard rock persona, and production experience to create a sound of his own. His contagious energy and stage presence captivates the room. His percussive delivery and sweet but cynical lyrics naturally draw an audience to join in harmony.

Kalen will be releasing his debut solo album, "Sweet" in the Summer of 2022, featuring special guests such as Brian Viglione (Dresden Dolls, NIN, Violent Femmes) and Ray Luzier (Korn) on drums.
